“ Troy was a mentor, the reason I am what I am. I traveled, worked, and stayed with Troy for about 15 years of my career, actually probably a little more. He was there after I lost my dad, he was also the one who promoted and taught me everything i know (not everything he knows). I have too many memories to write them all. We have even faced death a couple of times. I spent more time with him than my own family working the way we do. He was always the life of a party, the kind of guy you liked being around. He was a proud Father, Husband, Brother . He was a hard worker that could always be depended on to get any job done. So, to say he made a huge impact on my life would without a doubt be an understatement. Just as me saying that Troy will be forever missed and held close to my heart would be. There are no words that I could ever say that would even come close to accurately describing how much respect I have for that man and how much he meant to me .

“ Prayers for Troys family I cannot stress enough how big of an inspiration Troy was to me. He was my first boss when I got into the electrical trade I was scared to screw up in front of him when I first started but after I got to know him he became one of my closest friends. If I ever needed anything he would go out of his way to help. He gave me a place to stay when we started working in Florida. In Texas he let me borrow his company pickup under the condition I detailed it of course (and to his standards lol) I would go anywhere with old T-roy! Really wish you were here on storm doin what you love I know your peeking at us all from up there! Rest Easy Buddy
