“ *Although I may not have been related, Brian always called me brother. I am honored to have known him and it's been a blessing being a part of his life, if only long distance. He has touched the lives of my children and closest friends and he will never be forgotten. My prayers are with him and his family.*

“ My love, I know we talked about the fact that you probably didn't have a very long time here, I just didn't think the time would've come so soon, but no matter when the time came it would always be too soon. You were such a beautiful soul, I am just so glad and grateful that i was lucky enough to know you. You showed me what true love is, I thought I had known before but we have a once in a lifetime love that some people go their whole lives not knowing. You just impacted and changed my life forever in so many ways, in all of the best ways possible. and i think you touched everyone you met, even if it was just in a small way. I know now that after all of your battles, you are finally at peace.
