“ I'm so sorry to hear of Dave's passing. I worked at CRREL with him many years ago. He was in charge of the motor pool. One incident that I remember most was when he encouraged me to paint my first car. I had no experience and he said that it wasn't that difficult and said that I could try on an Army vehicle that he had gotten ready for paint. So the next day I suited-up, he gave me the gun and I started spraying. I thought that I was doing pretty good until I first noticed a run in the paint. A few seconds later 4 or 5 more runs appeared so I stopped and asked him to finish it. Embarrassed, I didn't show my face in the motor pool for a week. When I finally did see him again, he never criticized my botch job but instead showed me the car. It was beautiful. I know that he must have worked long and hard to get those runs out. He was truly a kindhearted person.

“ To the family: I worked with Dave many years at CRREL. He was an extremely competent mechanic and equipment operator and helped me in many ways. He was always willing and eager to help when needed. I recall one instance when another colleague and I blew the transmission on a CRREL pickup truck. It was just minutes before CRREL's closing time, but we called and Dave came down and towed us back from the hills of Croydon with his usual cheerful attitude. So sorry for your loss,

“ I was very sorry to learn of David's passing this morning. While at CRREL, he supported many of my projects. Dave went above and beyond to assist, offer guidance, and help construct road test sections for us. He was one of a kind and will be missed.
