*Uncle Hank, I'm sorry I wasn't there, I was told you wouldn't want me. But I still love you. I have great memories and some not so great because we are both harsh spoken and strong willed people. But years ago on this day we would have gone up the river and spent the day at the Springs and you would be fiddling with the engine, don't know why. but that was you all the time trying to make something run a little better. them teenage years weren't that bad we had laughs. Thank you for all that you gave and the stuff you didn't know you gave when I was little. Thank you for letting us move to Florida with you, or else we were gonna run away to you. I wouldn't have my 2 amazing kids or 4 grandsons if you didn't let us come and live with you. No one can stop me from loving you or remembering you and the life we all shared years ago. <3*

“ Hank gave many years of dedicated service to the Duke Energy Lake Norman Mosquito Control Program. He and his boat teammate Bill Kiefer covered some 200 miles of lake shoreline weekly for six months from May through October each year. They provided state of the art scientific control measures to shallow water lake mosquito breeding habitat to reduce the numbers of nuisance and disease carrying mosquitoes. Hank was a trusted, humorous, plain spoken member of the team. He will certainly be fondly remembered by his fellow teammates. Jean you have our sincere condolences, Thank You so very much for sharing Hank with us.

*Sincerely Yours..... Ken " The Professor"*
