“ You were the first friend I made on the Villain Arts tour. You had no hesitation in approaching me that night as I sat by myself on a park bench on the boardwalk in Wildwoods NJ looking at the hole in my shoe from working a 12 hour shift solo. I was exhausted, malnourished and questioning if this is really what I wanted to do for the foreseeable future when you sat down and offered a kind ear and a shoulder to lean on. I started seeing you at every event after that. I looked forward to meals with you, cheering on our performer friends in the front row each night and walking around together picking out tattoos for each other that we couldn't afford. Spending time with you was the highlight of my weekend. The kindness, joy and lust for life you showed everyone who took the time to know you will live on forever. Even though your seat will be empty at the Asheville show I know you'll be there with me still. This world is forever changed for the better thanks to the impact you had on so many people.

*Thank you Chris for your kind words. Damien loved the tattoo convention community very much. He mentioned you all every day. We appreciate your support during this difficult time.*

*How fortunate my family was to have Damien as a neighbor for several years. His love & care for my animals never failed, best animal sitter ever. The afternoons were filled with laughter and snacks between our two houses. I was struck by his integrity and responsibility as a youngster . His beautiful light will always shine in our family and memories.*
