“ I may have not had the pleasure of knowing Julian in person but he certainly made an impression on me through his screen. We talked through a game called "World of Tanks Blitz" a world war 2 arcade tank game that he enjoyed very much. We then became friends and continued to speak on the app known as "Discord." Me and him were very close and I valued him as a brother. I have multiple mental issues such as being bipolar and depression and Julian helped me every step of the way. I can honest to god say Julian was one of the kindest souls on this planet earth. He never let his illness get him down and he was always such a magnificent ray of sunshine. He made me laugh, smile, brought me up when I was feeling down. On August 8th word got out that Julian had passed away and the comunity of World of Tanks Blitz was shook. A channel was made on discord by the Top Clan in all of North America to honor him. The channel now has hundreds and hundreds of messages all from different users mourning the loss of such a wonderful soul. I myself and a youtuber meaning I produce videos on the social service called YouTube. And with my channel I made a video dedicated to Julian, with one of his favorite games in the background while messages from his friends and people who knew him came onto screen. And while I was not able to say goodbye to my dear friend, I'd love for his parents, mother and father, to see the video and know just how much of an impact Julian had in his short 16 years of life. My phone number is 757-378-4143 if you wish to contact me.
