“ Ken was my office mate and we shared a laboratory for many years. Besides being a good friend with a great sense of humor, he was the best example I know of someone who works hard while having fun at the same time. He never lost that sense of fascination with discoveries large or small. I will miss Ken. My condolences go out to his family and friends.

“ Time spent with Ken was always a treat. He was a skillful storyteller and brought humor and color to every interaction. Along with the jokes and humor came technical mastery, and I appreciate the chance to have learned from and laughed with Ken.

“ *Dear Street Family, I am sending my deepest condolences for your loss. Ken was a wonderful Engineer and a great colleague. I will always remember his office full of plants. I was fortunate enough to become the owner of one of his baby corn plants. His botany skills were amazing. He gave me a baby corn plant growing in an Erlenmeyer Flask. It was truly amazing to see this plant growing out of the flask with a stand and clamp holding it up. I have attached a picture of this special plant as a tribute to Ken. May he rest in Eternal Peace.*

Sincerely,
