“ *I loved Miss Riehl. She inspired me to become a teacher. Twenty five years later I was supervising student teachers for Cleveland State and I observed a student teacher in her classroom. I was as amazed at Miss Riehl's amazing teaching ability then as I was when I was in third grade.*

“ Miss Riehl was way ahead of her time. A pioneer in special education she identified two of us as special learners back in 1959 before special education was a recognize education speciality. She recognized that two of us were having learning issues but had the potential to do better. She worked with us after class on her own time to give us the tools to succeed in a system that did not recognize alternative pathway learners. She gave us the confidence to continue to work hard even though it would be a struggle. I had the opportunity to return the favor to a small degree in the 1980's when she had already redirected her career to special education. She asked me to talk to the parents of her students to help them through the guilt and anxiety of the label of special needs, or special education. I had, in part because for her work with me and confidence in me, achieved a measure of success they could recognize. I have thought of her often and shall always appreciate her sacrifice on my behalf. May her memory serve as a source of comfort and solace to her friends and family. Jeffrey M. “ I am 72 and still remember all she taught me. She was my favorite teacher at Rowland. She made learning fun and always patient. Everyone who was lucky to have her for a teacher was truly blessed. Rest in peace.

“ *Very sorry to hear of my favorite teacher's passing. More than 1/3 of my 1962/63 third grade class went on to earn advanced degrees, thanks in part to our excellent elementary school educational foundation.*
