“ My brother was very helpful he took pride in saying that he was caring for his mother. During the years we worked together building houses. If you were doing trim work he was the person to have cutting it as he was able to make the cuts right the first time. He was very talented when it came to electronics especially CB's it was like a science to him. He will be missed by all that he talked on the CB over the years. Max, I guess you got me with the long hair as mine is still short! You will be greatly missed!!!! Your sis, Shawnte Wyrick
