“ I hope I have the right Mike Davis, first off. The Mike I helped while working at Terra Bella, in Mooresville was a wonderful man. He was my Mikey. We had many conversations in the mornings while i would get his medication together. He always made my day a little brighter and less stressful. People did not give him credit for how intelligent he was. He would amaze me at some of the things that he knew that i didn't understand. I know he loved his decaf, black coffee. I used to pick on him for drinking it decaf and defeating the purpose of the coffee itself. He would just laugh and hold his cup up for a refill.

When he passed, I was no longer working at Terra Bella, so I didn't get to say bye. My heart was hurt when I heard about him passing away. All of the residents became a second family for me. They always tell you to not get attached, but its really hard not to when you see them every single day and get to talk with them and get to know them.

My heart goes out to his family, even though I never got to meet any of them. I know he will be truly missed by everyone he knew.
