“ Peace and diplomacy would never permit an older brother to have a favorite kid sister. For it's the big brothers' role to love them and protect them all from what my harm them. For Sharon, Pain and suffering, and the loss of her son Brian are things that changed the course of her life, but did not derail it. With a strong and determined will, She moved on in her own direction. I'm Sorry I could not protect you from the bad things, they were all beyond our abilities. She had beautiful straight black hair, the ability to hold her own in an argument, win your heart with her smile, and an infectious laugh.
