I am so sorry I just found out about 15 minutes ago I had been outside working in the yard all day and hadn't been around my phone I just come in around 7:00 and I picked up my phone so I'll message and I was totally shocked I didn't know William has been sick I wish I would have known I would have loved to have spent some time with him growing up from the 8th grade until the rest of his life he was always one of my closest friends I can't count the days and fun we had growing up in high school and especially in the summer months we still almost every Sunday down at Frank Nance house riding horses. As time went on our lives took different paths but each time we met the friendship was still strong as ever I guess you could say I really love that guy he was one of the best friends I ever had.
